**GET PAID. FOR REAL.**

| Payment Data Systems Company |

Protect your business-Protect your customers

## Hosted Payment Page

Immediately reduce risk and streamline your checkout process with Singular Billpay. Simple and secure, the **Hosted Payment Page** will reduce, or even eliminate, custom web development needs.

### Accessibility

Unlimited hosted payments pages to quickly generate and accept payments from customers.

### Secure

Pages are secure and will collect cardholder information with tokenization.

### PCI Compliant

Your hosted payments page is hosted by the Singular BillPay Gateway in our PCI compliant facility.

### API Readiness

Program the hosted payment page using our API sensitive data communication via encrypted hash.

### Customization

Choose which fields are hidden, displayed, or required to make each page fit your needs. Upload your logo for clear identification.

### Automation

Set a "usage count" to automatically deactivate after a certain number of purchases. Control start and expiration availability dates.

### Simple Share

Choose from numerous output options including, a simple email form, direct links, HTML code, iFRAME code, and QR codes.

### Customer Service

Add a ReturnURL and display custom "Thank You" pages after payments.
