Automated Invoices & Payment System

Easy Invoices

An easier, more convenient invoicing system for your business and customers. Simply post your invoices and let Singular BillPAY take it from there. Your customers get their own web portal to view invoices, make or schedule payments, view payment history, and much more.

Compatibility

Post invoice data from virtually any system via API or manual file upload

Secure

Ready to use and built into our Gateway's secure, PCI Compliant system

Reporting

Aging reports and others keep track of invoices and payments

Customization

Branded invoices for customer recognition and edit the content of email notifications

Options

Presentment and payment acceptance or opt for invoice presentment only

It's not just for you. It's also for your customers!

Choices

Choose invoices to pay and make payments, in real time, with cards or e-checks

Schedule

Schedule payments to be automatically processed on a specific, future date

History

Complete record of all processed and pending transactions placed through the system

View

Customers can see both current and past invoices.

Options

Customers can add and control their own accounts on file for payment
