A Smarter Payment System

Recurring Billing

Streamline your transaction process, increase your cash flow, and reduce processing costs with Singular BillPay's recurring billing system. It's easy! Simply enter your customer's payment info, how much, and how often to charge them. Singular BillPay takes care of the rest! Recurring billing saves you time while guaranteeing your payments run on-time, every time.

Reduce PCI Scope

Payment data is kept secure in our gateway's PCI Compliant facility – reducing your PCI scope.

Reliable Cash Flow

Secure more predictable cash flow through automated billing. Use Recurring Billing reports to view future receivables.

Automatic Charge

Reduce late payments and increase efficiency by automatically billing customers a fixed amount on a fixed schedule.

Configuration

Create bill schedules, edit plans currently in use, manage plan status and customize email receipts.

API Accessibility

Our Recurring Billing system is flexible enough to meet your needs by managing recurring plans using our API.

No Limits

Create an unlimited number of plans with an unlimited number of customers using them. Charge your customers again and again.
