

A Smarter & More Efficient Way to Pay Virtual Terminal

Use Singular Payment's Virtual Terminal to process credit card and ACH payments online securely, efficiently, and effortlessly. With Virtual Terminal, you can conveniently process payments anytime or anywhere from any computer or device with internet access. Simply input payment information and process securely.

Customizable

Designed to work on any device of any size, edit the configuration to choose which fields you want to use and which ones you want to hide.

Secure

Singular BillPay is a fully PCI-Compliant Certified Payment Application.

Possibilities

Process ACH or Credit Card transactions of any type (Sales, Refunds, Voids, Authorizations, Captures, and Credits).

Usability

Allows for multiple users to login and process transactions simultaneously.

Versatility

Supports multi-merchant account environments.

Results

Receive authorization responses and confirm transaction status results immediately.
